ADVERTISE YOUR WANTS IN THE CHRONICLE

LITTLE ITEMS OF LOCAL INTEREST

Mr. R. McGregor left on Wednesday for Rockyford.

Misses Mary Currie and Ella Halstead returned on Monday from Calgary, where the schools have been shut down on account of the epidemic of Infantile Paralysis.

B. Nugent, mine inspector of Camrose, arrived in town on Tuesday and is inspecting the local mines.

The public parlor of the Carbon Hotel has been redecorated and painted and now presents an added appearance within the local hostelry.

Harvesting is still being delayed on account of the rainy weather.

Miss Dorothy McComb arrived back from Calgary on Tuesday.

Guy Shell has purchased one of the new Combine threshers.

Miss May Williams is expected back today after spending the last six weeks in Calgary.

Mr. and Mrs. H. A. English and son Roy motored to Olds on Saturday, returning Sunday evening.

Miss Lucy Ruff returned on Saturday from her home near Delia, and is again employed in the post office here.

R. B. Wilkinson and son motored in from Olds on Sunday.

Dick Gimble returned from Calgary on Sunday.

Rev. and Mrs. C. B. Oakley motored to Calgary on Tuesday.

J. R. E. Coburn has purchased F. Morrison's house, which is now occupied by Jas. Stout.

Mrs. Hill has moved into the Turcotte building.

A general meeting of the Carbon Chess and Checkers Club will be held at the office of the Imperial Lumber Yards on Tuesday evening, Sept. 20, at 8 p.m. All those who are interested in either chess or checkers are asked to be present as the meeting is called for the purpose of re-organizing for the coming season. It is desired to make an early start this winter as there are prospects of team matches with other towns.

The flower day at the United church last Sunday was a huge success. Everybody co-operated and the array of flowers could not be excelled. The church was crowded to capacity and if comment is to be taken as a test, everyone enjoyed the service.

At the service next Sunday Mrs. Torrance will sing and the subject of the sermon will be, "Market and Temple."

Telephone Smith of Acme has made a wager that he can go from Carbon to Banff, and return (a distance of about 320 miles) in a Ford Sedan with standard equipment, on eleven gallons of gasoline, and take two passengers with him. He is looking for someone to take up the wager. Now is the chance you Ford dealers.

CARBON BOARD OF TRADE HOLD REGULAR MEETING

At the Board of Trade meeting held in the Municipal office on Monday night the matter of gravelling the road on the hill just north of town came up and a representative was appointed to interview the Village and Municipal councils with a view of obtaining \$100 each from them for the purpose of partly paying for gravelling expenses.

Other matters coming up for discussion were the possibilities of a creamery in Carbon and the building of a community hall, but nothing definite was decided on either of these questions.

The officers of the Board will set a date for the Annual Board of Trade Luncheon, which will be held within the next few weeks.

INFANTILE PARALYSIS— [ACUTE POLIOMYELITIS]

General Precautionary Measures

Keep children away from crowds. Allow them to play out doors as much as possible, but not in contact with large groups of other children.

Give children wholesome and easily digestible food, including plenty of milk and vegetables. Raw vegetables and fruit should be thoroughly washed before being eaten. Milk should be kept cold and perfectly protected from flies.

Children should be given a daily tub bath, and their clothing should be washed frequently.

Children should have ample rest. Twelve hours sleep in a well ventilated bed room is a good rule to follow. Keep the bedroom windows open.

The home should be kept thoroughly clean and free from flies or vermin of any description.

Inasmuch as there is a great variation in the onset of Poliomyelitis (paralysis) at the time when the disease is prevalent, children showing any evidence of a departure from normal health should be carefully watched and isolated. It is urgent that prompt medical attention should be given in all cases.

The abortive or very mild types of the disease which recover in a few days without paralysis, and the carriers who harbor the virus of the disease in the nose and throat but do not develop the disease, are now known to be most important factors in the spread of infection and render the control of the disease an extremely difficult problem.

In patients suffering from the disease, careful attention should be given to the prompt disinfection of all nose, throat, and bowel discharges, and to articles soiled there with.

When the disease is prevalent all children known to be ill and not receiving medical attention should be reported to the Local Board of Health.

The quarantine period in Poliomyelitis is three weeks from the onset of the infection. Exposed children of the household and adults of the household whose vocation brings them into contact with children, or who are food handlers, should be quarantined for fourteen days from last exposure to a recognized case.

SPORTS WINNERS AT SCHOOL FAIR

The Carbon School Fair was held in the school here on Friday, Sept. 9th and the large number of entries and their high quality showed the fine work and care given to the various entries.

Following is a list of the sports winners. Prizes, 1st, 2nd and 3rd in order of merit.

Boys under 12 running broad jump: P. Johnson, B. Peters, N. Ramsay. Boys under 14: P. Johnson, B. Peters, B. McGregor. Open class: P. Galech, W. Poxon, N. McClure.

Running hop-step-and-jump: Boys under 12: N. Nash, B. Peters, W. Skerry. Under 14: H. Edwards, A. Birch, Chas. Poole. Open class: W. Edwards, H. MacDonald, W. Poxon.

50 Yard Dash: Boys under 8: C. Code, G. Jealous, S. Ramsay. Girls under 8: S. Dodyk, E. Wiertz, A. Skerry.

75 Yard Dash: Boys under 10: W. Skerry, B. Peters, W. Downe. Girls under 10: D. Bell, D. Luft, B. Johnson.

100 Yard Dash: Boys under 12: J. Fairbairn, Billy Ward, C. Luft. Girls under 12: W. Poxon, B. Johnson, L. Gervis. Boys open class: W. Edwards, W. Poxon, N. McClure. Girls open class: L. Wallace, V. Atkinson, G. Maxwell.

Relay Race (4 pupils each school): Carbon, Avondale, Roseview.

Horse Race, Open: W. McGregor, M. Laing, Irvin Mortimer.

Sack Race, under 12: N. Ramsay, B. Ward, B. Peters. Open class: H. MacDonald, H. Ramsay, W. Poxon.

Potato Race: Girls: M. Oliphant, V. Atkinson, E. Bell. Boys: B's. Peters, McGregor, Galech.

CURLING MEETING

Mr. Greenan has received the certificate of incorporation of the Carbon Curling Club and a curling meeting for the purpose of electing officers and for other business that might arise, has been called for Friday night at 9 p.m., in the Municipal office.

7 YEARS AGO

(Taken from the Carbon News of September 16th, 1920)

Miss Belle Smith has returned to Calgary to resume her studies.

Mr. and Mrs. J. J. Greenan and Stan Carney were in Calgary last week.

Mrs. C. H. Nash who has been ill for the past week is able to be around again.

Mr. Braisher is back from Banff and has improved wonderfully the last few days.

Mrs. W. Leitch has been ill a few days and we are glad to report that she is on her way to recovery.

Mr. C. H. Nash met with a painful accident last Saturday on his way to Pine Lake. He had a .22 beside him in the car, when by accident the door of the car came open and allowed the rifle to slip out on the running board, discharging as it did so. The bullet entered Mr. Nash's arm at the wrist and lodged above the elbow.

Over 30 years the same good tea.
Now packed in **Aluminum.**

RED ROSE TEA "is good tea"

RED ROSE ORANGE PEKOE is extra good.

Annual Invasion Of the West

The prairie provinces of Western Canada are now rejoicing in the invasion to which they are subjected once a year. Not many countries find it a matter for congratulation to be invaded by an army of tens of thousands of husky men who, after a few months, depart taking substantial sums of money with them. But the West rejoices, extends a warm welcome, and holds out the hand of friendship to these men because it is a peaceable army of constructive laborers without whose help the West would suffer immense loss.

The coming of this army of harvesters is always an important event. It signifies the last stage of work in connection with the garnering of the crops which the Western farmer has expended so much labor and has followed with alternate hopes and fears through all the vicissitudes of plowing, harrowing, seedling, lack or over abundance of rain, hail, winds, and numerous plant pests. This army has come to assist him in finally reaping the reward of his labor and hours of anxiety. The hum of the binder, the transformation of the fields of rippling grain into stook dotted yellow prairie, and the cattle and roar of the threshing outfits is music in the farmer's ears, and a picture upon which he is never tired of looking.

The advance guard of the harvester army came from British Columbia, with a sprinkling from the British Isles; then the long trains bringing their quota from the far distant Maritimes; finally the main army from Ontario and Quebec. Many of these men are veterans who served in previous years' campaigns against the standing grain, but, undoubtedly, the larger number are young recruits, who will see and experience life in the prairie West for the first time. Thousands of them are exactly the type this Western country wants as permanent settlers. Indeed, all over the West are to be found among the most successful farmers men who first came as harvester hands, men who with their families are now making a great contribution to the growth, development and prosperity of this portion of the Dominion.

In welcoming this year's harvester army and putting it to work, the resident farmers of Western Canada should do what lies in their power to make living conditions as comfortable for the men as possible. Most men do not mind things a bit crude and rough provided they are clean. Long hours and hard work in the fields call, not only for the wages paid, but good food and lots of it and a comfortable bed on which to lie at night. The provision of such things means contented workers, fit as fiddles, who are willing and capable of rendering maximum results during working hours.

The people of the West should strive not to coddle the members of the harvester army, but to make converts of them to the glories of the West, the advantages and opportunities it has to offer. The West wants as many as possible to remain as permanent settlers, but it is equally important to the future of this country that those who return home do so with nothing but words of praise for the country and of the fair treatment and hospitality accorded them.

And the harvesters themselves should not be hasty in jumping to conclusions when conditions do not wholly appeal to them. They must realize that this is a period of stress, when straining efforts to the breaking point is necessary, and where, in many cases, it is financially and economically impossible to make as complete preparation in some respects as might be desired. The harvesters should study the country, try to enter into its spirit and methods, and closely investigate its possibilities with a view to deciding whether it would be to their advantage to throw in their lot with those who have done the pioneer work.

There is still room and opportunity for pioneers, lots of them. Rewards are still in store for the man, even of small means, who has initiative and energy and is prepared to throw his whole vigor into the task of creating a new and better home for himself. To all such the West beckons and says "Welcome." Return to your homes, if you must, but don't forget the West, and come back again as soon as you can.

Even in the days of the inquisition they never locked the victim in a room and compelled him to listen to hours of piano practice.

It isn't necessarily a compliment to say a man is sound. Some men are all sound.

Red is the color of good fortune among the Chinese.

During the past 100 years the population of the world has increased from less than 1,000,000,000 to about 1,700,000,000.

When you think you have found the key to success the next thing is to lose the lock.

Some people find it easier to please others than to please themselves.

CHILDREN CRY FOR

Fletcher's CASTORIA

MOTHER:— Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Dr. H. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

To Build New Intertype Factory

Will Employ Over One Thousand Workers In Huge Plant

To keep pace with expanding business, the Intertype Corporation, of Brooklyn, are building a large new factory in the town of Harrison, New York. The Intertype Corporation now employs about one thousand workers. The annual payroll amounts to more than \$1,500,000, and with the increased facilities afforded by the new plant this amount will be largely increased.

The Intertype Corporation manufactures the well-known Intertype Typesetting Machine. This machine is in general use by newspapers, publishers and printers everywhere, machines and supplies being shipped to all parts of the world. Branch offices and agencies are maintained in the principal cities of the United States and Canada. Subsidiary corporations operate in England and Germany. The executive offices, now located at 1440 Broadway, New York, and the two factories, one in New York and one in Brooklyn, will be combined in the new and enlarged building at Harrison. Building operations will commence immediately, and the new factory will be in full operation by Sept. 1, 1928.

Touchy Corns Relieved By Marvel Liquid

Instantly the ache stops—the pain goes away,—that is the immediate effect of Putnam's Corn Extractor. Pain the corn or callous with "Putnam's", and the corn will shrivel up. After a few applications of "Putnam's" the corn will drop out. No pain, or disappointment. Putnam's does the work—a sure pop corn remover. Get a bottle from any drug list. Refuse a substitute.

No Better Than Others?

"Would your experience confirm the popular notion that there is a sense of honor among thieves?" said the visitor to the prison chaplain. "Well—not there may be exceptions," returned the chaplain. "but, generally speaking, I find thieves just about as bad as other people."

Many infants are infested by worms which cause great suffering, and if not promptly dealt with may cause constitutional weaknesses difficult to remedy. Miller's Worm Powder will clear the stomach and bowels of worms and will so act upon the system that there will be no recurrence of the trouble. And not only this, but they will repair the injuries to the organs that worms cause and restore them to soundness.

There are 1,861,000 square miles of desert area in the world. This is equivalent to the combined areas of the United States, England, France, Germany, Greece, Egypt, the Japanese Empire and the Fiji Islands.

Muscular Rheumatism Subdued.—When one is a sufferer from muscular rheumatism he cannot do better than to have the region rubbed with Dr. Thomas' Electric Oil. Let the rubbing be brisk and continue until ease is secured. There is more virtue in a bottle of it than can be fully estimated.

In common justice it should be recognized that all automobile drivers who meet with accidents on the highway are not fool drivers.

Micard's Liniment eases sore feet.

Empire Party Will Visit All Provinces

Members Of Parliamentary Association To See Canada Next Year

Members of the Empire Parliamentary Association next year will make their first official visit to Canada. All the nine provinces will be visited during the five or six weeks of their stay in the Dominion in September and October, 1928. The Canadian branch in extending the invitation expressed a desire to afford an opportunity for the delegates to investigate the resources and institutions of the Dominion; to promote mutual personal acquaintance and friendship among the members of the various parliaments; and to interchange views at informal conferences.

Coin experts declare the name "two-bits" come down to us from pirate days—despite the popular belief that pirates gave no quarter.

If a man has a good memory he knows when to forget.

New Steel Being Tested

Defies Extreme Heat and Acids Say Experts At Copenhagen

Announcement of some successful experiments made with a new steel that, it is asserted, will withstand extreme heat and the reaction of acids and gases injurious to the metal, is made by a Copenhagen newspaper. The new product is without a name. Ten tons of it have been produced at the Varde Works for comprehensive testing purposes.

The metal has been exposed to high temperatures in Copenhagen furnaces which heat to a temperature of 350 degrees, in which the metal has been allowed to remain for five or six periods of ten hours each, without showing any injurious effects. It is said that a piece of the best steel previously produced was completely destroyed in the first heating, at a temperature that had no effect on the new metal.

In the tests at the Varde Gas works pieces of ordinary steel and of the new, of the same size, were left in a "recarburetor" for six weeks at a temperature of from 1,000 to 1,100 degrees. At the end of the experiment the ordinary steel had practically disappeared, while the new alloy showed no signs of having been affected by the heat. Considerable interest has been aroused by the results obtained.

Protect the child from the ravages of worms by using Mother Graves' Worm Expeller. It is a standard remedy, and years of use have enhanced its reputation.

Bells Out Of Tune

Three Bells Of Carillon At Ottawa To Be Replaced

Three bells in the carillon which peals forth from the Victory Tower of the Parliament Buildings here are out of tune and will be replaced. It is stated by the department of public works. Steps for the replacement are now being taken.

They are among the small bells in the great collection which forms the carillon. The tone of a bell, it is stated, may be affected by even a slight slip in polishing.

A Scottish Boys' Work

One of the Scotch boys, who recently went to Australia, wrote home that he saves \$5 a week, and added, "I got up at five, milk 17 cows, take the milk to the station, collect the mail at the post office, return home and feed the cows—and then start to work."

LIFE WAS A BURDEN

Restored To Health Through the Use Of Dr. Williams' Pink Pills

"It is a pleasure," says Mrs. Ross Boulter, of Victoria, P.E.I., "to tell you of the new health and strength I got through the use of Dr. Williams' Pink Pills. Before taking the pills life was a burden to me. I was so badly run down that I did not know what to do. My blood seemed to have turned to water. I was very pale, constantly tired, and was losing flesh. It was a trial to attempt housework. Added to this I had a bad cough and my husband and friends thought I was going into consumption. The medical treatment I was taking did not appear to do me any good, and I had about given up hope when a friend urged me to try Dr. Williams' Pink Pills. I got six boxes and found so much benefit from them that I got six more boxes. Before these were all taken I was a new woman restored again to good health. I gained in weight, the cough left me, my appetite returned and I once more had a good color. Better still, I was able to do my housework without failure. Needless to say I always recommend Dr. Williams' Pink Pills to ailing friends, and I hope this will be the means of pointing the road to good health to some other sufferer."

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuralgia, nervousness. Take them as a tonic if you are not in the best physical condition and cultivate a resistance that will keep you well and strong. If you will send us your name and address, a little book, "Building Up the Blood", will be mailed you prepaid. This book contains many useful health hints.

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Agent: "Lady, may I see you for a second?"

Mrs. Grim: Yes; I expect it will be at least two seconds before I can get this door shut."

Genuine

ASPIRIN

Proved safe by millions and prescribed by physicians for

Colds	Headache	Neuritis	Lumbago
Pain	Neuralgia	Toothache	Rheumatism

DOES NOT AFFECT THE HEART

Safe Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Mononitro-acidester of Salicylic Acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Editor and Publisher

Apple Sauce

Does he know how to drive?

Say! He hit a cop today that everybody has been trying to hit for a month.

For black is black and white is white—until a woman says it's black.

He—Have you a date for tomorrow night?

She (hopefully)—No, I haven't.

He—Fine; I'll lend you a good book to read.

Dumb Dora says her boss is so mean that if she is late to work he docks her and if she is early she has to pay rent.

Do you think it was suicide?

No; he still had a pint of gin in his pocket.

Radios and women are all alike. Just try to get what you want when you want it.

This means a good deal to me, said the guy as he stacked the deck.

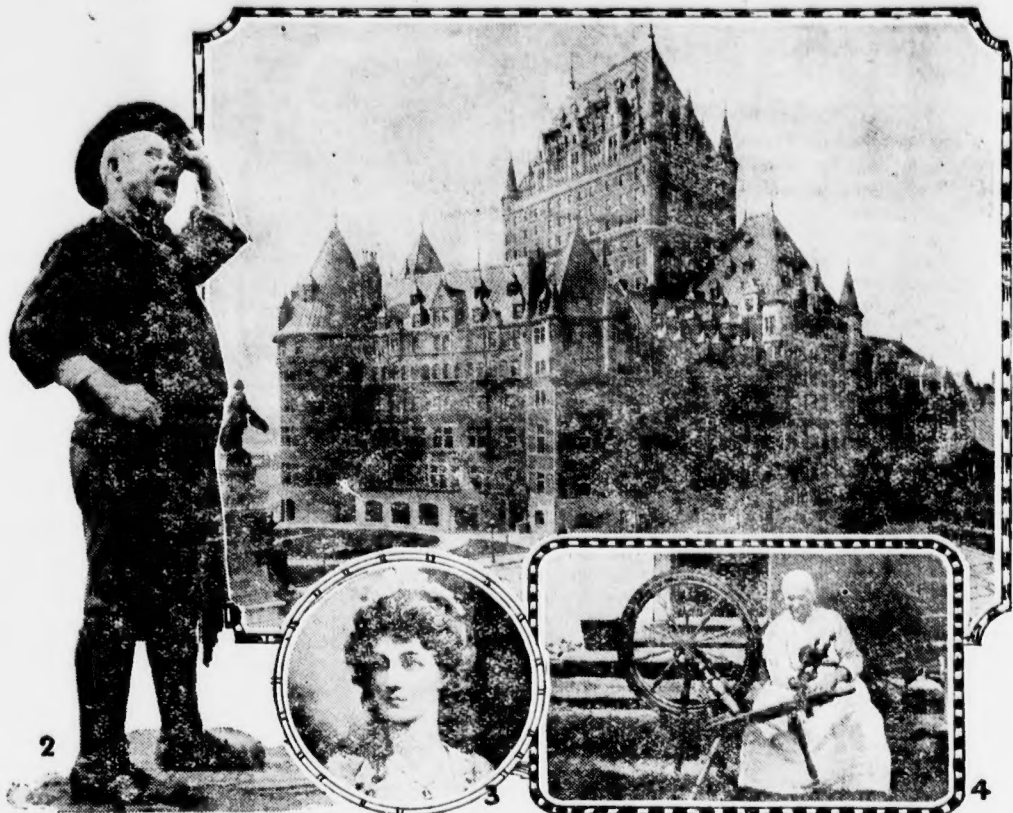

Postmaster Elliott is now in a position to supply thirteen 2c postage stamps of the pre-Confederation variety for the price of a cent and a quarter.

Calgary customer—Are you quite sure this suit won't shrink if it gets wet?

Ikey Min' friendt, effery fire company in the city has squirted water on dot suit.

The sting of a bee is a swell affair.

Singing Tobacco-Grower to Feature Festival

1. Chateau Frontenac, Quebec, where Festival will be held. 2. Vincent Ferrier de Repentigny. 3. Madame de Repentigny. 4. One of the handicrafts of Old Quebec.

For more than three-score years Vincent Ferrier de Repentigny has been singing. He sings in the morning while he is dressing, he sings while he works, he sings in the evening when he is sitting in the rocking chair by the kitchen stove. In fact, Madame de Repentigny asserts that it is not unusual for her good man to sing in his sleep.

Vincent Ferrier de Repentigny, by the way, is one of the best known interpreters of the French Canadian Folk-song. He has the largest repertoire—387 songs, some dating back to the sixteenth and seventeenth century, when they were sung in the courts of France and by the fisher folk on the shores of Brittany. Most of these melodies de Repentigny learned from the lips of his mother, who remembered them herself as she sang them at the spinning wheel in the little farmhouse at St. Timothee where de Repentigny spent his youth. Other he learned from the shanty men during the winters he spent in the "woods"—good rollicking songs that were sung hundreds of years ago by the "voyageurs" who explored Can-

ada's rivers and forests in the early days.

De Repentigny comes of a family which stood high at the Court of the French Kings in the 17th century and is a descendant of the famous Madame de Repentigny who was really responsible for the introduction of handicrafts into Canada. When in 1805 the French vessel "La Seine" carrying the annual cargo of Paris frocks for the Ladies of Quebec was captured in the high seas by the British, and these ladies saw themselves faced by the prospect of isolation for an indefinite time from the supply of new clothes, Madame de Repentigny, the social leader of the time, set the farmers at once to the sowing of flax and the breeding of sheep, and the women to the spinning of thread and the weaving of cloth.

De Repentigny is still as much in demand at social affairs as he was thirty or forty years ago. He is well known to the French population of the Province, and almost as well to the English. He will leave his farm in Beauharnois county long enough to take part in the Canadian Handicraft and Folk-song

Festival which is being held at the Chateau Frontenac in Quebec from May 20 to 22.

De Repentigny began life as a farmer and intends to spend the remainder of his days growing "tabac Canadien"; but he has tried his hands at many trades. He has spent several winters in the bush; for some time he was captain of a great lakes freighter; he has been a tailor, and is still the proprietor of a restaurant in Rosemount. Yet he is a true "habitant" and there is nothing that appeals to him so much as a cosy little farm house somewhere in his native county, and a few good acres of healthy tobacco.

This big-hearted jolly fellow who has a smile and a handshake for everyone carries his sixty-nine year lightly. His voice is as strong as it was when he was a young man; his step as light. De Repentigny's grandfather lived to the great age of 108; his father was hale and hearty at ninety, and De Repentigny himself expects to sing all of his 387 songs many times over, and grow many pounds of tobacco, before he joins his illustrious forefathers.

WORLD HAPPENINGS BRIEFLY TOLD

Carroll Aikens, Nanaimo, B.C., has been appointed director of the Hart House Theatre, University of Toronto.

The date of the conference of Provincial Prime Ministers, with the Federal Government has been set for November 3, and will probably last some days.

Four special stamps have been issued in Japan to commemorate the fiftieth anniversary of the entry of that country into the Universal Postal Union.

Total profits made through liquor handled by the British Columbia Liquor Control Board reached \$1,913,872 for the six months' period ending March 31, it is announced.

The death of Zagloul Pasha, President of the Egyptian Chamber of Deputies and Nationalist leader, is announced in a Cairo despatch to the Exchange-Telegraph Company.

At a meeting of the Canadian Aeronautic Association held in Toronto, the present state of aviation in Canada and plans for placing the country in a forward position in this respect were the feature topics of discussion.

Future long distance flights should have far better preparation and more stringent requirements than the Dole air race to Hawaii, according to U.S. Department of Commerce aviation officials.

Proposals for the establishment of two grain elevators and a flour mill at Victoria by a Buffalo-Vancouver syndicate, were considered recently at a special meeting of the city council. The combined cost would run to nearly \$3,000,000.

The erection of a mooring mast in the vicinity of Montreal to accommodate the transatlantic airships will be followed by providing similar facilities on the Pacific coast, according to a prominent Government official in touch with plans for connecting the far-flung portions of the Empire by airship routes.

Choked for Air. Some little irritant becomes lodged in the bronchial tubes, others gather, and the awful choking of asthma results. Nothing offers quite such quick and positive relief as Dr. J. D. Kellogg's Asthma Remedy. The healing, soothing smoke or vapor penetrates, clears the passages and gives untold relief. It has behind it years of success. It is the sure remedy for every sufferer.

Viscount Deerhurst was the eldest son of the 9th Earl of Coventry and was in his 62nd year. He was a member of the National Rifle Association Council.

Used by physicians—Minard's Liniment.

The eyes of a frog, when exposed to the light of a candle, will generate an electric current easily measured on a galvanometer.

Mrs. J. B. Hiltz

Michelle Hiltz

Toronto, Ont.—"I found Dr. Pierce's Favorite Prescription very beneficial. During my third expectant period I was nauseated, my nerves went to pieces and I grew so weak and miserable that I could not do anything. I finally began taking Dr. Pierce's Favorite Prescription and from that on I got along fine. My nerves quieted down, I grew stronger and had a very healthy baby. She always has been exceedingly well. 'Favorite Prescription' is the greatest help in motherhood of any medicine a woman can take."—Mrs. J. B. Hiltz, 53 Sydenham St.

Go to your neighborhood drug store at once and obtain this Prescription in tablets or liquid, or send 10 cents to Dr. Pierce's Laboratory in Bridgeburg, Ont., for trial package of tablets.

DISTINGUISHED VISITORS TO CANADA

Canada is an ideal holiday resort in the opinion of this distinguished group of passengers who arrived in the Dominion a few days ago on the White Star liner *Megantic* to enjoy their vacation. From left to right the group includes Sir Thomas Esmonde, Bart., Senator in the Irish Free State, and Lady Esmonde; Lady Craig, her daughter, and Sir Ernest Craig, Bart., M.P. for Croyce, who owns collieries in Wales. Sir Thomas Esmonde is a

hunter of note and despite the fact that he has hunted in practically every country he thinks Canada has the finest hunting and fishing in the world and he has said so in one of his books. On this trip he will travel right through Canada and probably shoot big game in western Canada. Sir Ernest Craig, on the other hand, will enjoy a quiet holiday in the Muskoka Lakes district before returning to England on one of the White Star liners.

Northern Volcano Is Active

Volcanic Peak On Western Aleutian Islands Is On Rampage

Bogosloff Island, a volcanic peak in the Western Aleutian Islands which rose from the sea May 18, 1796, is intensely active again. Herring Flaun, Danish consul at Seattle reported upon his return from Siberia on a trading vessel.

"We went within three miles of the island," Flaun said. "The entire island seems afire, smoke and steam was issuing from every part and many huge cracks could be seen. It has the appearance of an Inferno. Hundreds of sea lions were being driven off the island roaring as if in protest of the burning of their island home."

Russia's Millions

Population Of Soviet Union Estimated At 146,200,000

The total population of the Soviet Union in round numbers is 146,200,000 says a report submitted to the Council of People's Commissaries by the Central Statistical Department.

Russia proper (The R.S.F.S.R.) contains 100,500,000 people, Ukraine 28,800,000, White Russia 4,900,000, Caucasus 5,800,000, Uzbekistan 5,100,000, and Turkestan 1,000,000.

And money is often the root of many a family tree.

Aviation In Australia

Commonwealth Government To Spend Considerable Sum On Airways

The Melbourne correspondent of the Sydney Telegraph reported that the commonwealth government decided to allocate an additional 200,000 pounds sterling to the development of civil aviation. It will make a total Federal grant of 315,000 pounds sterling to finance the scheme being worked out to bring the most distant parts of the Commonwealth to within four days' journey of the capitals of the Eastern States by means of a series of airways encircling the whole continent.

Russians Inhabit Wrangell Island

Have Erected Several Houses Reports U.S. Scientific Expedition

When the yacht *Northern Light*, bearing John Borden, Chicago millionaire, and his field museum expedition through the Arctic on a scientific expedition, arrived at Wrangell Island the expedition reported by wireless that the island had been inhabited by Russians, who had erected five large and several small houses near Rogers Bay, Wrangell Island has been claimed at different times by American, British and Russian colonies.

The things that we try to keep dark come to light sooner or later.

SUNDAY SCHOOL LESSON

SEPTEMBER 1

SOLOMON'S WISE CHOICE

Golden Text: "Happy is the man that findeth wisdom, and the man that getteth understanding." Proverbs 3:13.

Lesson: 1 Kings 3:1-15.
Devotional Reading: Proverbs 8:12-19.

Explanations and Comments

1. Solomon's Wise Choice, verses 4-9.—David has died and Solomon has been anointed king. Solomon went in state to Gibeon, presumably in the first year of his reign, accompanied by a vast retinue. Gibeon was the great high place, that is, a Canaanitish sacred spot, or place for sacrifice, located upon a hill-top. The Israelites consecrated such "high places" to the worship of Jehovah. The law of Deuteronomy 12:16-21 forbade worship at high places and restricted the worship to a single sanctuary, but worship at high places was practised until the time of Hezekiah, 2 Kings 18:4.

Although the ark stood in a temporary tent at Jerusalem, Gibeon is called the chief high place because the tabernacle, the ancient tent of the wanderers, was there. In front of the tabernacle stood the brazen altar for sacrifices (2 Chron. 13:5), and there Solomon offered a thousand victims. He wished to display his royal munificence to his great assembly. That night when the smoke of the sacrifice had rolled away and the music and noise had ceased, Solomon slept, and in a dream Jehovah appeared to him and said, "Ask what I shall give thee."

"Still, earth grows hard with facts and fears:

Stark life were but a sorry scheme:

Lord of the everlasting years,

Guard Thou the dreamer and his dream!"—Nancy Byrd Turner.

In answer Solomon spoke of his father David's uprightness of heart and God's mercies to him, and spoke of his own ascent of the throne as a great kindness shown to his father; compare 1 Kings 1:48. Then he spoke humbly of himself: "I am but a little child," he said. Josephus says that Solomon was only fourteen years old on his accession to the throne, but we know from 1 Kings 11:42 and 14:21, that he was already married, and it is generally supposed that he was about twenty years old. "I know not how to go out or come in," he added, making use of a proverbial expression which meant that he did not know how to conduct public or military affairs. With customary oriental exaggerations, Solomon thus acknowledged his lack of experience and his realization of the greatness of the task before him. Compare Jeremiah 1:6, 8.

If one be troubled with corns, he will find in Holloway's Corn Remover an application that will entirely relieve suffering.

"I look forward every Sunday to the after-dinner nap."

"I thought you never slept after dinner."

"I don't, but my wife does."

An Attractive New Frock

Of decided appeal is this charming frock. The skirt, having the fullness shifted in the front, is joined to the bodice, while the back is in one piece. View A employs contrasting material for the convertible collar, the sleeve puffs, belt across the back, and is applied on the lower part of the bodice. The modish sleeveless bolero jacket ties in a chic bow in front. In View B the frock has short sleeves of contrasting material and a round neck. No. 1561 is for misses and small women and is in sizes 16, 18 and 20 years. Size 18 (36 bust) requires 4 yards 39-inch, or 2½ yards 54-inch plain material, and ¾ yard 39-inch contrasting material for View A, and ¾ yard for View B. Price 29 cents the pattern.

The designs illustrated in our new Fashion Book are advance styles for the home dressmaker, and the woman or girl who desires to wear garments dependable for taste, simplicity and economy, will find her desires fulfilled in our patterns. Price of the book 10 cents the copy.

A Prime Dressing for Wounds. In some factories and workshops carbolic acid is kept for use in cauterizing wounds and cuts sustained by the workmen. Far better to keep on hand a bottle of Dr. Thomas' Electric Oil. It is just as quick in action and does not sear the skin or burn the flesh.

"Can you stand on your head?" asked a patronizing visitor of the youngest boy of the family.

"No," was the reply. "It's too high up."

DYSENTERY WAS SO BAD BECAME ALARMED

Mrs. Wallace Pepper, R.J. No. 6, Simcoe, Ont., writes:—"Last summer I was very bad with dysentery. I lost my appetite, and had such severe pains in my abdomen they made me very faint. I passed blood which greatly alarmed me, so I hurried to the doctor. He told me the quickest way to get rid of it would be to take

"I took only part of a bottle and was completely relieved. I feel I cannot recommend it too highly."

This wonderful bowel complaint remedy has been on the market for the past 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

PREMIER BALDWIN LEARNS TO DRIVE LARGEST LOCOMOTIVE IN BRITISH EMPIRE

The Rt. Hon. Stanley Baldwin, the British Premier, took a short course in engine driving at Pickering, Ontario, on the new Canadian National locomotive, number 6120, the largest and most powerful railway engine in the British Empire. Mr. Baldwin, when visiting Kingston, Ont., heard that this titan of the steel rails was an all-Canadian product, designed by Canadian National Railway engineers and built at the Kingston shops. Early on Saturday morning No. 6120 was attached to the Royal Train to haul it into Toronto to mark the opening of the new Union Station. Mr. Baldwin, although busily engaged in the preparation of his speeches, halted in his work to make an inspection of the engine, eventually climbing into the cab with the engineer. He showed the keenest interest in the manner in which the big locomotive was handled when travelling at high speed, and worked the various levers controlling the engine. "It is a wonderful piece of machinery and should be a source of pride to the Canadian designers and builders," said the Premier on leaving the locomotive. No. 6120 is one of forty engines of similar type that are being turned out this season for the fast passenger and freight services of the National System. When in regular service they will run 510 miles without change—the longest locomotive runs in the Dominion.

SURVEYING NEW H. B. LINE TO FORT CHURCHILL

Winnipeg, Man.—To speed up the work of surveying the territory through which the Hudson's Bay Railway will pass, from the end of the present steel to the proposed terminal at Fort Churchill, three engineers from the Department of Public Works at Ottawa, arrived in Winnipeg en route for the north.

Accompanying the engineers was a small party of special craftsmen and on their way to Le Pas, Manitoba, about 200 more men will be engaged.

Some of the party will proceed to Port Nelson to commence the work of retrieving as much of the harbor material as can be used at Fort Churchill.

Another group of men will start on the preliminary survey for the harbor development at the new terminal.

It has been decided by the Government, as announced by Hon. Charles A. Dunning, Minister of Railways and Canals, that the work shall be advanced as expeditiously as possible and to this end work which can be done before the fall freeze-up is being rushed. Early next spring, just as soon as possible after the snow has melted, an army of workmen will be busy.

Will Conduct Soil Survey

Alberta Government To Investigate Agricultural Lands In North

Edmonton, Alta.—A soil survey of agricultural lands in the north country adjacent to the E. D. and B. C. Railway will be made for the Alberta Government in the next few weeks.

The work will begin as soon as possible after the return of Alfred A. Chard, who is in the north now checking up homestead and other available lands. When Mr. Chard's report, with a list of lands, has been dealt with by the Government a number of experts from the Department of Agriculture and University of Alberta will go north to conduct a series of investigations into soil conditions, with tests to follow.

Another World's Record

German Aviator Flew Upside Down For Ten Minutes

Paris.—A German aviator named Fieser has set a world's record in topsy-turvy flying, according to dispatches from Geneva. Fieser, leaving from the Zurich Flying Field, circled head downward, under observation of official witnesses, for 10 minutes 58 seconds.

After resuming normal flight for several minutes the pilot landed without difficulty and apparently unaffected by giddiness.

Troops In Rhineland May Be Reduced

Expect French Forces Will Be Cut To 50,000 Shortly

Paris.—The readaption to circumstances of the allied troops of occupation in the Rhineland is on the verge of conclusion, it was semi-officially learned at the Quai d'Orsay.

Conversations between Great Britain and France have been going on for several weeks concerning decreasing the force of occupation, and it is expected that the French troops on the Rhine will be cut to 50,000 within a fortnight.

Discuss Law Society Matters

Toronto.—Representatives of the governing bodies of the legal profession in Canada met at Osgoode Hall to discuss matters of interest to the law societies of Canada. Hon. N. W. Howell, K.C., presided and addresses were delivered by Lindsey Crease, K.C., of Victoria, B.C.; D. J. Thom, K.C., of Regina; Dean Read, of Dalhousie University, Halifax, and Dr. D. A. Macneil, of Osgoode Hall, Toronto.

Execute Woman In Moscow

Moscow.—Mme. Klepikoff, sentenced to death last month in a court martial at Kronstadt, was executed, the central executive committee of the Soviet having rejected an appeal for remission of sentence.

Carried Latest News To British Editors

Airplane Took Press Despatches To Visitors At E.P. Ranch

Calgary.—No matter where newspapermen are they must have the news. Even when the party of British editors detained at High River and left in automobile for the Prince of Wales' ranch, which they believed to be far off in the foothills and separated by miles of prairie from the nearest station, an aeroplane from the forest patrol at High River pursued them and after their arrival at the ranch dropped them the latest Canadian Pacific despatches, giving them all the most important information of the world's affairs.

Bears Were Friendly

Lord Chief Justice Of England Interested In Bears At Banff

Toronto.—Lord Hewart of Bury, lord chief justice of England, said the Banff bear had been the high light of his trip from Quebec to the Rockies and back, when he arrived here to attend the meetings of the Canadian Bar Association.

"The bears came to the side of our car and begged for chocolate," the genial jurist said. "We fed them and they posed for their photographs." He was surprised to hear that a woman had been attacked by one of these bears. "They were most amiable to us," he assured his interviewer.

Open Game Reserve

Opportunity To Be Given Tourists In South Africa To See Fauna At Close Quarters

Cape Town, South Africa.—The national game reserve of South Africa, consisting of 200 square miles of virgin land, is to be opened to tourists. The national board of trustees met at Komatiport to consider building roads within the reserve. An experimental road 37 miles long already has penetrated the heart of the bush.

The scheme follows the suggestion of a visitor. When worked out it will enable people to see the African fauna at close quarters in safety, something that has not been possible before.

Would Leave Ireland Alone

Sydney, N.S.—"Our duty to Ireland at the present time is to leave her alone," declared Treasurer Haley, of Chatham, N.B., addressing a public meeting at the 24th biennial convention of the Ancient Order of Hibernians of New Brunswick and Nova Scotia. Mr. Haley referred to the fight for self-determination in Ireland a few years ago, and declared that the fight had been won. The Irish people had achieved the same degree of self-determination as existed in Canada. Their sympathizers in Canada might now leave them to work out their own destiny.

Wins Editorial Contest

Montreal.—H. P. Davidson, The Acadian, Wolfville, N.S., won the contest conducted by the national committee for the celebration of the diamond jubilee of Confederation to determine the best editorial appearing in weekly newspapers dealing with Confederation and the progress of Canada. Mr. Davidson's editorial was entitled, "Canada's Greatness." Honorable mention was given The Gwyllan Leader, Duncan, B.C., for its editorial, "O Canada."

B.C. Liquor Profits

Victoria.—Total profits made through liquor handled by the British Columbia Liquor Control Board reached \$1,813,872 for the six months' period ending March 31, it was announced here. Of this amount \$534,596 went to the various municipalities, the largest distribution ever made by the Government since Government liquor control was inaugurated. Profits for the six months' period ending September 30, 1926, were \$1,564,000.

Worried Over Payroll

Omaha, Neb.—Comes from Clarence Chamberlin, trans-Atlantic flier, a story that Charles A. Levine, was more worried about a roll of bills on their trip than about himself. He forgot to leave the money behind for his payroll. "When he thought of it," Chamberlin relates, "he shouted in consternation, declaring he certainly hated to go into Davy Jones' locker with all that money on him."

PREPARING FOR BIG TORY MEET AT WINNIPEG

Edmonton.—Western Canada will be fully represented at the big Conservative convention at Winnipeg October 11, to name a national leader. This was definitely stated by Major-General A. D. McRae, Vancouver, chairman of the organization committee for the pending convention, when he delivered a special address before local Conservatives who tendered him a luncheon here.

Showing there will be a full representation from the head of the lakes to the Pacific, General McRae stated that in British Columbia it was a question as to who could go as many were anxious to make the trip. He had received an assurance from Senator W. A. Griesbach that Northern Alberta would be fully represented, and he had the same information regarding Southern Alberta. Saskatchewan also was expected to send a full delegation.

There probably will be 1,500 delegates at least at the convention, stated the General, who declared it probably would mark an epoch in the history of the party. It would likely be looked back to as the greatest event since the days of Sir John A. Macdonald.

From Ontario there would be almost a complete representation of delegates, while the 200 expected from Quebec might be increased to 250. Enthusiastic reports were being received from the Maritime provinces and other districts, all pointing to a bumper convention.

Soviets Praised By Trotsky

Awaiting World Revolution Which He Thinks Is Inevitable

Moscow.—Leon Trotsky, interviewed by an American labor economic delegation, praised the Soviet government as the first attempt to prove that a world Socialist society is workable.

He denied that the opposition in Soviet Russia, of which he is one of the leaders, wants the Soviets to declare war against the bourgeoisie countries, and said that the opposition sit with folded hands awaiting the world revolution which inevitably will follow the coming world war.

Would Restrict Immigration

Philadelphia, Pa.—A plea for the retention of high wages and restriction of immigration, and a denunciation of undesirable aliens in the United States featured an address given by James J. Davis, secretary of labor, speaking at the convention of the Loyal Order of Moose.

Prince of Wales Shocks London

Bond Street is lamenting and Piccadilly refuses to be comforted and the voice of the mourner is heard in the land. Something resembling a fashion earthquake has struck London. Society and the glasses of fashion and moulds of form of that city are in sackcloth and ashes. This, at any rate, is what Associated Press despatches from that city tell us and the reason is that the Prince of Wales is wearing a hard straw hat. It appears that if "Is't done" in the best circles and what's more it hasn't been done for forty years. Only Harrow school boys, we are told, Smithfield meat porters and tourists commit this

Newspaper Men Meet At Geneva Conference

To Study Some Problems Connected With Their Profession

Geneva.—The men who are managing the news agencies and the newspapers of the world gathered at Geneva, under the auspices of the League of Nations in an international conference to study problems connected with their profession. Improvement in the means of communication, telegraphs, telephonic, and wireless, more reasonable rates for the transmission of news, better facilities in the collection of news, the removal of censorship in peace time, and examination of the general problems of the legal protection of press information were subjects on the agenda.

The Canadian Press was represented by Hon. Frank Carrel, publisher of the Quebec Chronicle Telegraph.

Exchange Of Radio Programs

Proposal Made By Engineer Of British Broadcasting Company

New York.—Peter P. Eckersley, chief engineer of the British Broadcasting Company, announced at a luncheon in London that he intended to visit this country in September to begin negotiations which he believes will result within a year in a regular exchange of English and American radio broadcast programs.

Eckersley's announcement, made at a luncheon of the Radio Manufacturers' Association of Great Britain in London, was relayed here by radio telephone and received by American radio men breakfasting in a New York apartment.

Predict Leather Shortage

People Eating Less Meat and Hide Production Below Demand

New York.—What the public saves at the butchers, it must lose at the shoe makers, according to a warning issued by the National Shoe Retailers Association. Too few cattle are being killed to provide supplies of shoe leather, the statement says.

Because the public is eating less meat nowadays, present production of hides is far below demand and world's supplies have been exhausted, the association declared. Advances of 15 to 20 per cent. in shoe prices were predicted.

Annual Sheep and Swine Show

Regina.—The annual sheep and swine show and sale will be held at the exhibition grounds here on November 1, 2 and 3. The show will be held in Saskatoon preceding its appearance here, on October 27 and 28. Some excellent prizes have been offered, including specials by breeders' associations.

BALDWIN GIVES HIS IMPRESSIONS OF RECENT VISIT

Southampton, Eng.—Right Hon. Stanley Baldwin, Prime Minister of Great Britain, Mrs. Baldwin and party arrived on the Empress of Scotland after their extended tour of Canada.

"I have had a very strenuous time," the Premier said in an interview with a representative of the Canadian Press, "but it has been a wonderful experience and I have enjoyed every minute of it. In 19 days I made 26 speeches, I mention this only in case there has been an impression abroad that I have been on a holiday."

Premier Baldwin soon plunged into matters of state upon his return to these shores as a bulky despatch box was at Cherbourg awaiting his arrival there on his way to Southampton.

During the voyage the Premier treated his fellow passengers with characteristic courtesy but skillfully declined to be drawn into discussions on political or commercial matters into which some of the travelers hardly concealed their anxiety to beguile him.

Chatting with those around him, Premier Baldwin again alluded to the deep impression his journey across Canada had made upon him.

"Despite some thickly populated centres like Montreal, Toronto and Winnipeg, over the whole Dominion there are only three persons to the square mile," he said, "so you understand why Canada's problem is different from ours. Even travelling at the rate of 50 miles an hour I had no time to visit the Pacific coast, although I did cross the Great Divide and set foot in British Columbia."

The Premier especially mentioned the profound impression created upon himself and Mrs. Baldwin, when they first viewed the heights of Algonquin and afterwards witnessed the vociferous welcome extended to the Prince of Wales and Prince George. He also spoke enthusiastically of his visit to Lake Louise and of the simple heartiness of farewell given Mrs. Baldwin and himself in Nova Scotia.

Study Boundary Problems

Representatives Of Canada and U.S. Meet In Vancouver

Vancouver.—Problems of the international boundaries between Canada and the U.S. and Alaska are being studied by special commissions from both governments. John D. Clark, director of surveys, Ottawa, and Col. E. Lester Jones, Washington, D.C., who are now in Vancouver.

Referring to the proposal as put forward by Hugh Denison, Australian trade commissioner in New York, that the port of Skagway in United States Alaskan territory should be internationalized or leased to British Columbia interests, Col. Jones said neither he nor Mr. Clark had heard anything of the scheme officially.

Co-Operative Elevator Second Payment

Second Distribution To Shareholders Of Saskatchewan Company

Regina, Sask.—Aggregating about \$1,500,000 the second distribution payment to the shareholders in the Saskatchewan Co-operative Elevator Company, Limited, was made by the Saskatchewan General Trust Corporation, liquidators of the Co-operative Elevator Company. This is the second payment of approximately \$1,500,000 made since the Saskatchewan Co-operative Elevator Company, Limited, was purchased by the Saskatchewan Pool Elevators Limited, early in April. Twenty-eight thousand cheques were made out and sent to the shareholders of the company.

Will Make Binder Twine

Portage la Prairie, Man.—The Manitoba Cordage Co. of this city, manufacturers of medium and heavy wrapping twine, are now about to manufacture binder twine as well. The concern only started last May to turn out twines and cordage from hemp grown in Western Canada and concerns now to be well established.

A new and significant step, alike in Western Canadian agriculture and in the industrial manufacturing of that territory, was taken in May when at Portage la Prairie, Manitoba, a variety of twines and cordage manufactured from hemp grown in Western Canada was turned out and shipped to a number of provincial points. The new industry, employing only thirty hands and capitalized at \$200,000, locally subscribed, may appear as a small one, but the event is full of interest and moment as incorporating an activity with such possibilities to the agricultural and manufacturing industries of Western Canada and one of which there is sore need. The plant at Portage la Prairie is of improved and modern type, and on this foundation the new industry can confidently be expected to proceed apace.

After being satisfied that ample supplies of raw material could be produced within reasonable distance of the point of manufacture at Portage la Prairie the Manitoba Cordage Company imported heavy seed of the best quality which it advanced to farmers with a guaranteed price per ton of straw delivered at the factory. A field man in the joint service of the company and the provincial government, which has throughout exhibited a keen interest, chose the land and inspected it for proper cultivation. During 1926 approximately 700 acres of land in Manitoba were sown to hemp, most of this about the Portage plains, in close proximity to the factory, with smaller areas at Morris, Claudeboye, Rokstad, Elm Creek, Carberry, Neepawa, Langruth, Oak Point, and in the Winnipeg district. This year it has been planned to seed 800 acres.

The rough and polished twines being produced and it was stated that, size for size, the heaviest strand of local grown product is much the market at competitive prices, at the market at competitive prices are around fast proving this, and those who have used it claim it is longer stronger, cheaper and easier to handle than other twines of similar size. Two three and four ply twines polished and stretched and rough, heavy unpolished twines are being manufactured.

The path has for some time been cleared for engagement in hemp manufacture in Western Canada and successful experimentation and demonstration has waited upon private enterprise and capital. With the successful launching of the industrial side there is no reason why the industry should not now spread rapidly and free Canada to a larger extent of her dependence upon foreign sources for these very necessary commodities. Already, it is understood, preparations are under way for an expedition in the Province of Manitoba.

Early Digging Appears To Furnish Most Productive Seed

Solved Difficult Problem

Prince Edward County Farmer Saved Fine Brood Of Chicks

The Kind That Makes the World a Better Place In Which To Live

The spirit of co-operation which exists between the business men of Craik, Sask., and the farmers of the surrounding district as demonstrated in a "graveling bee" held recently is highly commendable and should prove a source of inspiration to the people of Saskatchewan and Western Canada generally.

We do not know what the townsfolk do to reciprocate the assistance rendered them by the residents of the rural district, but it is a safe bet that any time the farmers are up against a shortage of help in the harvest fields or at any other time, the townsfolk of Crank can be relied upon to rush to their aid.

Urges Farmers To Advertise

Should Co-Operate In Marketing Efforts Says Connecticut Man

An appropriate slogan for the Connecticut farmers made adaptable to the modern age of progress, he said would read: "Early to bed, early to rise, market co-operatively and advantage."

Was No Relation

A certain Englishman was lunching with a well-known American society woman in New York.

"Any relation to the late Queen Victoria" asked the hostess in a seriousness.

"So you won't have so much to wash me with," replied the young sister.

Name

Town

A man who is satisfied with his job never reaches the top of the ladder.

That from the very first the Prince of Wales regarded the E.P. Ranch as no passing fancy would appear to be clear. The first practical step His Royal Highness took was to immediately appoint a capable ranch manager, a man of outstanding reputation in the agricultural circles of Alberta. The next was to make arrangements for the transfer from the United Kingdom of some of the best livestock—horses, cattle, and sheep—in that country. Every year since similar importations have been made

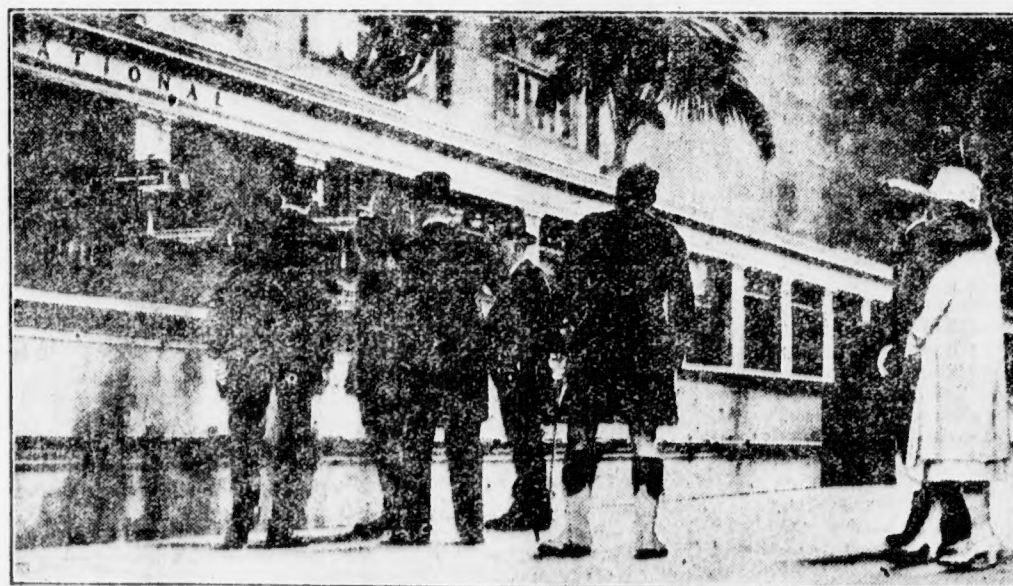

The value of this would have been distinctly limited, however, had such valuable animals been confined to the royal ranch, but the acquisition of a class of animals he had scarcely before known became a possibility for the Western Canadian farmer.

Throughout the eight years the Prince of Wales, despite the fact he has been almost ceaselessly travelling in distant parts of the Empire has exhibited an undagging interest in the ranch, which has not been merely sentimental but practical. On his yearly visit to England to supplement the ranch's stock depleted by sales, the manager has, when occasion offered, conferred with the royal owner, who has personally interested himself in the stock to be moved. On his visit to Western Canada this year the Prince could view with satisfaction the result of his efforts since when eight years ago a boyish impulse prompted him to acquire the lovely Beddington property. This time he came back to Western Canada not so much as a royal heir but as a real Western Canadian rancher with a definite standing among the aggrandiziers of that territory.

Eight-tenths of the country's piano are always out of tune, Charles Deutchmann, of Chicago, told delegates to the National Association of Piano Tuners at New York. He asserts that about \$360,000,000 of the \$900,000,000 spent annually for music education was thus wasted. Deutchmann said that a piano needed frequent tuning and that when it got out of tune the musical ear did likewise.

He—"Would you be angry with me if I asked you to be my wife."

She—"Not at all. But I'd be furious with myself if I agreed to."

When H.R.H. the Prince of Wales formally opened the new Union Station at Toronto his first action was to visit the ticket wickets of the Canadian National Railways, there to receive ticket No. 1 of the Issue from

the new Depot, entitling him to pass
the message "Between All Stations" and
good "for all time." Photograph
shows His Royal Highness at the
ticket window; behind him in mor-
ning coat is Lieutenant-Governor Ro-

of Ontario, and to his right, Mr. E. Gillen, general manager of the Toronto Terminals. On the extreme right of the photograph is seen Prince George, with Mrs. W. G. Ross, wife of the Lieutenant-Governor.

turning the paper does not answer
the law), if the subscriber does not
take the paper out of the office and
states the reason for its not being
taken.

Any neglect to do so makes the
postmaster responsible to the pub-
lisher for payment.

2. If any person orders his pa-
per discontinued he must pay all
arrears, or the publisher may con-
tinue to send it until payment is
made and collect the whole amount,
whether the paper is taken from the
office or not. There can be no
legal discontinuance until payment
is made.

3. Any person who takes a paper
from the post office, whether di-
rected to his name or another, or
whether he has subscribed or not
is responsible for payment.

4. If a subscriber orders his pa-
per stopped at a certain time and
the publisher continues to send it,
the subscriber is bound to pay for
it if he takes it out of the post of-
fice. This follows the sound prin-
ciple that a man must pay for
what he uses.

Four ships, arriving at Vancouver
within one week, brought more than
\$20,000,000 worth of silk from the
Orient, for trans-shipment to New
York. This is the heaviest move-
ment of its kind on record along this
coast.

The Canada Colonization Associa-
tion, a subsidiary of the Canadian
Pacific Railway for the settlement
of privately-owned lands in Wes-
tern Canada, in the first six
months of 1927 accounted for the
placement of 401 families on 97,944
acres of land.

The first passenger trip of the
Lethbridge Commercial Airways
was made on August 7th, between
High River and Lethbridge by a
plane piloted by Jack Palmer. It is
announced that commercial flights
will be arranged between Lethbridge
and Waterton Lakes.

Already the muskrat has come
to lead all other furbearers of the
Dominion in the total value of pel-
try sold, not alone by reason of
the great number of pelts taken,
but on account of the remarkable
rise in the price of the furs. In
the olden days furs sold in London
for a few cents apiece and in even
more recent times.
